Individuals training will learn how to recognize dangers and perform safety inspections necessary for the effective and safe operation of a powered industrial lift truck.

### Forklift Training Guidelines

The following checklist is vital for whatever workplace that has forklifts on the premises. Each of these questions should be answered with "yes" if all the safety rules and regulations are being followed. A "no" to any question indicates a procedural flaw that can result in damage to equipment, accident or injury.

- 1) Is the operating area of the forklift separate from the traffic of pedestrians?
- 2) Is pedestrian access to forklift travel areas restricted by barriers?
- 3) The pedestrian walkways well-marked?
- 4) Are "forklift in operation" signs clearly visible?
- 5) There are mirrors provided at blind spots for pedestrians and operators?
- 6) Are changes to daily forklift schedules communicated to all affected employees?
- 7) Are forklift tires suitable for use on all operating surfaces?
- 8) Forklift seatbelt is being utilized?
- 9) The seat of the forklift is in good condition?
- 10) The maintenance schedule of the forklift is being followed?
- 11) Is a yearly forklift certification and inspection carried out?
- 12) Is the forklift right for the needed job?
- 13) Does forklift has a load chart that is readable?
- 14) Could the operators read and understand the load chart?
- 15) The chart lists the safe lifting capacity for all attachments and their uses?
- 16) Are the warning devices on the lift truck working properly?
- 17) The speed operating control device is secured right?
- 18) Is overhead cage fitted properly on the forklift?
- 19) Do the operators of the forklift have certifications to operate the machine?
- 20) Warning signs and speed limits are being observed?
- 21) The operators have current training for the lift trucks being used?
- 22) Do operators understand their responsibilities to report any machine damage and forklift incidents?
- 23) Is the pre-test checklist reviewed on a daily basis prior to the machinery being utilized?
